

SLAW REBELS RUNNING AMUCK

SAILORS FIRE WAR SUPPLIES

Expected Battle Between Kronstadt Force and Capital Troops Does Not Come.

DEMAND NEW ELECTIONS

(By Associated Press Leased Wire.) Petrograd, Sunday, June 3, via London, June 4.—Sailors from the Kronstadt garrison, which recently declared its independence from the Petrograd government, are threatening to march on the city tomorrow with the announcement that warships at Kronstadt would come to Petrograd immediately and land men to make demonstrations. Later it was reported that sailors had landed at Gutesoff island, port of Petrograd, and begun an attack. A dispatch from the Gutesoff port quarter showed that the story of the landing and attack was untrue. However, it was sufficiently alarming to provoke intense excitement in the city and cause the dispatch of a military force to the scene.

Petrograd waited today for the threatened demonstrations by the Kronstadt warships, and as the time passed with no such incident, the announcement of the sailors, who reached here last night, came to be regarded by a majority as merely boastful talk on the part of extremists acting in defiance of the orders of the Lamanoff, president of the Kronstadt council of Workmen and Soldiers Deputies.

Demand New Elections. The Kronstadt sailors who came to Petrograd said the demonstrations would be for the purpose of bringing about new elections of members of the Council of Workmen and Soldiers Deputies. The sailors were denounced as bourgeois. The sailors also demanded that former emperor Nicholas be handed over to them. At street meetings they expressed dissatisfaction with War Minister Kerensky and the whole provisional government, particularly for abolition of the death penalty, which they characterized as premature.

On visiting the Gutesoff quarter the correspondent found that a vast fire had been burning for some time. There were evidences of a violent explosion. Windows at a considerable distance were broken.

Ship Fires Red Flag. It appears that at 2 o'clock this morning the ice breaker Oranienbaum instead of the Kronstadt warships, arrived off Gutesoff. It was flying the red flag. On it were sailors and workmen who were firing on the city. The Bolsheviks, who were on board, were ordered to stop firing and to open the wharf, took on board a party of Petrograd workmen and departed.

Simultaneously seven large canoes of phosphorus on the wharf were ignited. No one was injured, and buildings close by were undamaged, except for the destruction of glass. Inquiries show that it is improbable that any one landed from the ice breaker. The conflagration apparently was caused either by incendiaries from quarters other than Kronstadt or by official investigators on the spot against the spontaneous combustion of phosphorus exposed to damp and heat.

A Russian post, Sunday, June 3, via London, June 3, 11:02 p. m.—The American commission to Russia, headed by Elihu Root, which arrived here safely this morning, left on a special train this afternoon bound for Petrograd after calling on the officials here. The Root party probably will reach the Russian capital June 11.

The American railroad commission, headed by John F. Stevens, formerly chief engineer of the Panama canal commission, has completed the inspection of this Russian port and left for Petrograd this morning on a special train. It is expected that the commission will arrive in Petrograd June 17.

War Situation

There seems ample evidence that the Germans are prepared to go to almost any length at present in sacrifice of men to hold the situation on the western front in hand. Along the line held by the French effort is taking the form of almost ceaseless counter attacks, both in the Alsace region and in the Champagne. Although suffering a sanguinary repulse of Sunday in repeated attacks on the Vaucouleurs and Champagne plateau, the Paris report shows this to have had some measure of success, the crown prince's troops forcing their way into some advanced French positions.

The British on their front have not been so frequently counter attacked, but whenever recently they have essayed an advance they have evidently found dense masses of Germans opposing them. Today's British official statement does not mention any further fighting in the vicinity of Lens and apparently General Haig has not pressed further the attempt to advance made there yesterday which was checked by violent counter attacks with heavy forces.

In an independent operation further south, near Cherbourg, the British last night recaptured the post taken from them by the Germans in an attack on Saturday night.

PLAN TO DRAFT 1,500,000 MEN

Provost Marshal Crowder Discusses Huge New Army With Senate Military Committee.

EXEMPTION TO CUT NUMBER

(By Associated Press Leased Wire.) BULLETIN. Washington, June 4.—Plans of the war department to draft from 900,000 to 1,500,000 men of the 10,000,000, who, it is estimated, will register tomorrow for the new army, were disclosed today by Provost Marshal General Crowder to the senate military committee. Exemptions, he said, probably would result in reducing the number to 625,000 men for immediate service.

All activities of the department of justice have been concentrated upon the enforcement of the conscription law. Attorney-General Gregory issued a statement to this effect today. "All other matters for the time being," he said, "will be subordinated to the enforcement of the conscription act. Wherever necessary, the assistance of federal state and local officials will be sought."

Slackers Get Last Warning. Final warning against evasion of the draft registration tomorrow or attempts to induce others to evade it was issued today by Attorney-General Gregory. He said he expected a few men in each community to refuse to register but anticipated no resort to force to prevent execution of law.

"It is the duty of this department to prosecute evaders and it is proposed to do so," said the attorney-general. "The charge against the registrants living in this country is that they have been delinquent in the United States has been delivered at Petrograd by American ambassador Francis, but will not be published in this country or in Russia for a day or two while the state department is clearing up what are officially characterized as 'matters of detail.'"

AURORA WOMEN WORKING ON COMFORTS FOR NAVY

OPEN AT AUXILIARY HEADQUARTERS FOR NAVY LEAGUE.

In a great many Aurora homes today women are devoting their spare time to making helmets and muffs and sewing garments for the boys in the United States navy.

"Ditty" bags, in which the sailors carry their personal belongings while on Uncle Sam's big warships, are one of the women's products cherished by the jacks.

The women's section of the local branch of the Navy League opened headquarters today in the building at 18 South Broadway, which is also occupied by the government as a navy recruiting station. Here any information sought by women who want to work for the cause will be given.

Several young women will be at the recruiting station in the women's department to take care of inquiries. Cutting tables will be installed on which the women will cut all garments such as are needed in hospitals. The garments after being cut will be handed to women who will take them home to sew. They will be given instructions just how they are to be made.

Units all over Aurora are being organized for this purpose. Card clubs and church societies are being organized. Each club has a chairman who will assign members work and will return it to headquarters when it is completed.

Women of the Navy League would like very much to hear from all who are interested in the cause.

AURORA RECRUITS GO WITH PERSHING

Leslie and Kenneth Barber Two of 64 Men Picked Out of 800 Recruits.

Leslie and Kenneth Barber, two former men of the Beacon-News staff, who enlisted in the regular army, were among 64 recruits who were picked out of a group of 800 men at El Paso to go with the first expedition to France with General Pershing. It was learned today.

Corporal Polin, the local recruiting officer, says that the Sixteenth regiment in which the Barber boys have been enrolled, is called the "Fighting Sixteenth," by reason of its fine record and traditions.

At San Juan in the Spanish-American war the "Fighting Sixteenth" was the first to plant the American flag on the hill. The regiment lost three of its men being killed or wounded. Corporal Polin says.

This was about equal to the losses of the rest of the army.

Writing from El Paso Kenneth Barber says:

Dear Friends: We are in a regiment that is going to France with Pershing. Our only hope now is that we stick with it till we get across. We have learned already not to anticipate anything until it happens but our regiment is started for the first division that crosses the water.

We lit in El Paso yesterday after a ride of 48 hours. We rode two days and a night across Texas with nothing much for scenery but sand and mesquite. As we approached El Paso the country picked up and a regular tree drew rounds of applause.

Arriving in the city they transferred us to receiving barracks by auto trucks.

We spent in guardsmen's shacks last night and are in a tent in a city of tents tonight. We have had a regular Texas sand storm today and the tent blew down. We have put it up again but sand is in everything, shoes, food, etc., but we are going to France so we hope. Anyway our regiment is in it.

They took 64 men out of a shipment of 800 and assigned them to this regiment. According to the report we leave for an eastern concentration camp the last of the week for final training. Of course we may be transferred any minute or again we may not. Things happen to a man in the army at the rate of a million a minute. There are yesterday somewhere in the past, but tomorrow is the dim and misty future. Today is the time of the army.

We are getting more clothes and equipment every hour to equip us for foreign service. I have more clothes than I owned in civil life, which is some wardrobe.

The sand stopped this letter yesterday but here we are again. Our supply company and our 800 mules left this afternoon for the east. We are having inspections and examinations of the men are sleeping on the sand, many from choice as a bunk gets full of the fine particles and blankets are easily shaken out.

All in all army life is good. We eat in mess kits but have 'good 'chow' and have a fine bunch in command. Some of the 'kids' are homesick but most of the bunch is game for anything. Everything is still at sixes and sevens but is gradually rounding to form.

We have muster in the morning and expect to start packing immediately afterward. Will let you know when we get settled again.

KENNETH BARBER.

## TURK GOT READY BEFORE THE WAR

Who Told Him to Mobilize, Lecturer at N. E. Congregational Church Asks.

### SEIZED ARMENIAN WOMEN

Dr. Ernest Pye of the Marsovan college, Marsovan, Turkey, spoke before the congregation of the New England Congregational church last evening on "Internal Turkey and the Great War."

S. C. Kitchel, field secretary of the Chicago committee for Armenian and Syrian relief, made arrangements with Dr. Pye, lecturer of the Merchants National bank to take charge of the local relief work. Anyone interested may obtain information and subscription blanks from Mr. Kitchel.

### Turkey Mobilized Before War.

"The great struggle which faces the world today," said Dr. Pye, "may be divided into two distinct regions. In the first region, we have men equipped with the implements of war to carry on a fair fight. In the second, with which I shall deal, we have men equipped with all the instruments of destruction that war can give them, reinforced with the brutal, elemental passions of man. Pitted against them is a community of women and children in a defenseless state."

"Since the Crimean war, Russia has been engaged in extending their power westward, and southward. In the northern end of a rough triangle formed by the Caspian, Mediterranean, and the Black seas, lies Armenia, which since the extension of Russian influence, has been partly divided. Turkey has been aware of this extension, and the gradually increasing influence of a better Russian civilization."

"When the struggle began in Europe in the summer of 1914, the Russian forces were mobilized in August. The Turkish forces had been in a state of mobilization and engaged in training quarters three months before the outbreak of war. The question is: For what were they getting ready? Where did Turkey get her cue?"

"When the Turks mobilized, the Armenians responded in large numbers, forming two distinct Turkish armies. In the west, was a well-trained, well-officer, splendid army, who showed without a doubt, their fitness, when they repulsed the English army in the Dardanelles. In the east, the forces were entirely different. They were in a pitiable state of organization, ill clad, poorly fed, and with scarcely any arms. Disease caused more deaths in this army than bullets."

"At the close of the year 1914 the Russian force started west, and the Turks went forth to meet it. Because of the location of Armenia, there were soldiers from that country in both the Russian and Turkish armies, and gradually the question spread about why should Armenians fight Armenians? Undoubtedly, they were better off under the influence of Russia, and there were those who secretly hoped that Russia would be successful. In consequence, the Armenians, at least some of them, were soon suspected of treachery, and there was, it is true, a certain element among the Armenians who would have been active in facilitating the movements of the Russian army."

"The question which faced the Turks was this: What method must we take to guard ourselves? The method decided upon divided itself into three steps."

**Hundreds Arrested, Disappear.**  
The first step was to effectively break the strength of the Armenian male community, so that strength could not rise against them. The step was soon put into execution. In Marsovan City, the gendarmes appeared one morning, arrested between 300 and 400 men and started them off on a march into the mountain plains. It is said that these plains have many a secret of this world's history, and it holds the secret of those men as well. The fact remains that they lost their lives in some manner. This practice kept up until 1250 men, from the age of 15 upward, had been effectively abducted. The same process was carried out in other cities."

The second step made itself known Sunday afternoon, the fourth of July. An order came that all women and children were to take on carts and proceed at once into the valley of the Lower Euphrates. Picture, if you can, these mountainous people, bred in the healthy mountain air, getting into the fever infested regions of this valley. Then it dawned upon them, that it was not a process of deportation, but of extermination that confronted them."

"Now, I shall go back three weeks. Before the Turkish government embarked upon this plan, a step was made that has no parallel in history. Anyone that can supply me with a parallel will be doing what I think is an impossibility."

"The prisoners were thrown open and all criminals were sent into the mountains of Angora. Hear this in mind—three weeks before these deportation trains were passing on their way into the Euphrates fever district, these criminals were sent into the mountains, there to prey upon these innocent people."

"One instance will serve to show that these people knew what was before them. I was in my office one morning when a woman entered and told her pitiable story. She was the mother of children and realized the ordeal before her. She pleaded with me to give her enough of the 'black medicine' as it is called, to supply herself and her children, to be used when all hope had been lost."

## Seven Points About Registration

1.—There is only one day for registration, June 5, 1917.

2.—Every male resident of the United States who has reached his twenty-first birthday and has not reached his thirty-first birthday must register on the day of June 5, 1917. The only exceptions are persons in the military or naval service of the United States, which includes all officers and enlisted men of the regular army, the regular army reserve, the officers' reserve corps, the enlisted reserve corps, the national guard and militia, the militia reserve, recognized by the militia bureau of the war department; the coast guard and the naval militia, the naval reserve force, the marine corps reserve and the national volunteers, recognized by the navy department.

3.—Registration is distinct from Draft. No matter what just claim you have for exemption, you must register.

4.—Registration is a public duty. For those not responsive to the sense of this duty, the penalty of imprisonment, not fine, is provided in the Draft Act.

5.—Those who thru sickness

shall be unable to register should cause a representative to apply to the county or city clerk for a copy of the registration card. The clerk will give instructions as to how this card should be filled out. The card should then be mailed by the sick person, or delivered by his agent, to the registrar of his home district. The sick person will enclose a self-addressed stamped envelope for the return to him of his registration certificate.

6.—Any person who expects to be absent from his voting precinct on Registration day should apply as soon as practicable for a registration card to the county clerk of the county where he may be stopping, or if he is in a city of over 30,000, to the city clerk. The clerk will record the answers on the card and turn it over to the absentee. The absentee should mail this card to the registrar of his home district as that it will reach that official by Registration day. A self-addressed stamped envelope should be enclosed with the card to insure the return to the absentee of a registration certificate.

7.—Registration booths will be open from 7 a. m. to 9 p. m. on Registration day, June 5, 1917.

(Official Bulletin by the War Department.)

younger sisterhood. I have said that the women being deported were of mature years, and had lost the attractiveness of youth. But the younger women, in the full bloom of womanhood and virgin purity, were to be the prey of the Turk seeking youth and beauty for his harem. The word soon passed of this tragedy to young womanhood, bracing herself with all the God-given defense against her persecutors.

**Young Women Saved.**  
As the city emptied, attention was called upon the college, where there were some 50 girl students and teachers; refined and educated. Government officers were convinced that there was the greatest prize. Two or three of them were known by name in the city, and were sought for by high officials.

"There were but four men in the college to offer any protection and we were unarmed. In addition, because of the delicate situation which confronted us, we could offer no overt resistance. But what Christian man can stand and see innocent womanhood suffer? I am glad to say, that these young women are safe, and were at the last information received."

"There is but one thing to be done so that a tragedy such as happened among the Armenian people may not be repeated. Southern Asia must be controlled."

"Nowhere can there be suffering and sacrifice without some balancing good, and there must be a balancing of this incomparable tragedy."

### ARMY DESERTERS FEAR DRAFT REGISTRATION

A number of men who deserted the regular army in time of peace, have attempted to re-enlist at the local army recruiting office within the last few days. Corporal Polin said today. The men, who have been fugitives from justice, want to get back into the army without being drafted. They fear that if they register and are drafted they will be given severe punishment. Then again they do not want to refrain from registering and be classed as deserters in time of war.

### The Coming Baby

Every help that will tend to aid the expectant mother and foster the well-being of the tiny infant should be promptly rendered.

The time before childbirth is one of much discomfort. This is caused in a large measure by the tightening and straining of the abdominal tissues, as well as the network of cords, ligaments and muscles in that part of the body.

For many years thousands of women have successfully used the preparation known as "Mother's Friend." It is safe and dependable to be used by every prospective mother. A famous physician formulated the preparation. "Mother's Friend" is for external use, and is composed of special oils and other ingredients which have a penetrating and softening effect. Relief from much of the pain at birth is found.

Any woman awaiting childbirth should secure a bottle of "Mother's Friend" from her druggist, when the abdomen first begins to expand. No time should be lost in beginning its use. Apply it night and morning without fail. Address: Bradfield Regulator Co., Dept. B, 258 Atlanta, Ga. For immediate relief, apply it to the

## TRAPPED THIEF DIVES TO YARD

Short, Thickset Man, Caught In Joseph La Rose Home, Leaps Thru Window.

### ESCAPES WITH JEWELRY

The police have been able to get a fair description of the burglar who has been operating in Aurora for the past week and Chief McCarty today issued instructions to all members of the department to pick up all strangers answering the description. Mr. Burglar was seen in the act of burglarizing the home of Joseph LaRose, 359 Hammond avenue, last Friday night and was seen by a number of people in the neighborhood.

"Be on the lookout for a short, stocky man wearing a black cap," was the order Chief McCarty gave to his men. The burglar was seen to climb over the fence and enter the back door to the bedroom.

LaRose heard a noise in the bedroom and got up to see what caused it. As he stepped into the room he saw the form of a man, diving head foremost thru the open window. In his dive for liberty the burglar took with him the lace curtain on the window. He also had Mrs. LaRose's Jewel case, containing two valieres and two gold rings. He had started to search the bureau drawers for other valuables when he heard LaRose get up out of his bedroom.

A number of people passing the LaRose home saw the burglar run out of the yard. They described him as being of short and stocky build. He was a white man and wore a dark suit of clothes and a black cap. The LaRose home was brightly lighted and all of the window shades were up. The burglar must have seen Mrs. LaRose at the piano and LaRose reading the newspaper before he removed the screen from the window and climbed into the house. He is the same burglar, the police say, who climbed into the home of E. S. Hays, 135 Galena boulevard, last Monday night while Mr. and Mrs. Trux were entertaining company in the living room.

Many and many a girl has a clear, healthy complexion today because some friend came to her with that sound advice. Resinol Soap not only is delightfully cleansing and refreshing, but its daily use reduces the tendency to pimples, offsets many ill-effects of cosmetics, and gives nature the chance she needs to make red, rough skins white and soft.

If the skin is in bad shape, through neglect or improper treatment, a little Resinol Soap should be used at first to get the skin back to normal conditions. Resinol Soap and Resinol Ointment are sold by all druggists.

It may stand for United States, Or for Uncle Sam. But there's still another meaning To this simple monogram. We see it on our bonds and bills. And on our postal cards. It decorates our Capitol. Shadowed by Stars and Stripes. In all our barracks, posts, and forts. It plays a leading part. And the jolly sailor loves it. And enshrines it in his heart.

## THIRD REGIMENT ARMORY IS ROBBED

**Thieves or Spies Break Into Building, Possibly to Obtain Army Records.**

**Automatic Revolver Taken From One of Lockers All Property Reported Taken.**

The Third regiment armory in Island Avenue was broken into Saturday night, either by an ordinary burglar or someone seeking to steal records of the regiment. As far as has been learned, Col. Charles Greene said today, all that was stolen was an automatic revolver. It was taken out of one of the lockers.

**Break Open Side Door.**  
Entrance to the armory was gained by breaking in the side door. The office of Colonel Greene and those of Captains Newman, Harrison and Groom were locked and were not broken into. The door to the locker room of Company I was broken open and it was from this room that the revolver was taken.

"We have been unable to find any clue but it may be that some member of the companies who refused to take the oath broke into the building," Colonel Greene said today. "These men have been members of the companies and are familiar with the various rooms in the building. It is also probable that some alien broke into the building hoping to find plans or records. One revolver is all that we have discovered missing so far."

The police have been notified but no arrests had been made up until a late hour this afternoon.

## MILROY AIDING BILL TO CHECK THEFT OF AUTOS

No person in Illinois will be allowed to possess or run an automobile with the engine number filed off, or that is marked in any way to prevent identification if the Guernsey bill that has passed the lower house of the legislature passes the senate. This bill would, it is believed, stop the thefts of automobiles. Rep. R. A. Milroy reported. Discussion of an automobile defaced in any way will make the person having it liable to prosecution.

The Guernsey bill, providing for a registration of designs and names of motor vehicle trails, passed by the senate, is now in the charge of Representative Milroy, and it is likely to be passed this week.

## FIRST SUMMER DAY BRINGS OUT CROWDS

The fine weather of yesterday inspired people who have been long indoors by the rains of the last two weeks to spend the day out of doors. The traction companies reported that about 4,000 people visited Fox River park yesterday, about 2,000 of these riding on the street cars and the rest in automobiles. The ball game at the park attracted about 1,000 fans.

Several improvements at the park have been made, one of the most important being the grading of the dirt automobile road which formerly would fill with water after rains.

## VISITING ACTRESS IS DRAFTED AT THE FOX

An Aurora actress, here on a vacation, appeared at the Fox theater yesterday afternoon and saved the day when one of the actors hooked did not get to Aurora from Detroit.

Mrs. Fred Cook, whose stage name is Virginia Buchanan, sister of Mrs. A. C. Sylvester, was visiting here for the week. She left today for Detroit to meet her husband who is the attorney for the Barnum & Bailey circus. They will return to Aurora for a visit.

When the time for the afternoon session arrived, Assistant Manager Ruby Burton learned that one of the actors did not come. He telephoned to Chicago, Illinois, asking him to play. Mr. Holt had a bad cold and could not sing, but he mentioned the fact that Miss Buchanan was in the city. Mr. Burton telephoned to her and she agreed to act. He sent a taxi for her and she appeared and scored a success.

## CHICAGO PLANS BIG WELCOME TO ITALIANS

(By Associated Press Local Wire.)  
Chicago, June 4.—Plans announced today for the reception to be tendered the Italian royal mission to America which will visit Chicago Saturday and Sunday, rival the welcome given the French mission here recently when Generalissimo here was the hero of the two-day stay. Included in the plans for the greeting to be extended to the Italian visitors are luncheons, receptions, dinners, automobile tours, several minor meetings and a great mass meeting at the stockyards amphitheater.

## New Corn Remover Causes Big Run On Drug Stores

Since the virtues of Iro-Mint as a corn remover became known in this country, druggists have been having an extraordinary demand for this product and it is predicted that this year will wear smaller and prettier shoes than ever.

The fact that this new discovery which is made from a Japanese product, is actually made from roots and all—without the slightest pain or soreness, is of course mainly responsible for its large and increasing sale.

## Society

This June installment on the Y. W. C. A. fund is all right, because the sum has already been pledged, but would it not be patriotic for other enterprises which will not be affected by waiting a year, to hold off on financial campaign until Aurora can get its war aid funds in shape? Both the Red Cross and the Navy league will need money with which to purchase supplies to make up into necessities for the soldiers and sailors. After Aurora has its war aid preparations in shape, then on with forty-seven other things—but why have everything at once?

## First Informal at Country Club.

The first informal dancing party of the season at the Country club Saturday evening was even more successful than had been anticipated, and there is reason to believe that the people will come almost anything which dissipates the war gloom. Eddie Fitzgerald's orchestra furnished the music. The evening parties will be held upon some other evening in the week than Saturday, and if a change is made for this week, it will be so announced in adequate time.

## The Alumni Meetings.

Both East and West Aurora have chosen June 15 as the date of the annual meeting of former graduates and the 1917 classes.

East Aurora will have its meeting in the form of some sort of entertainment, the details to be announced later, with dancing in the gymnasium to the music of the Collins orchestra.

West High will have an old time reunion in the assembly room of West High, all members of the incoming class planning to attend. Later there will be dancing in the West High gymnasium—music by the music of Eddie Fitzgerald's orchestra—mobey, but have not heard absolutely. The dues will be 50 cents as heretofore with 25 cents for each guest. There will be refreshments and some form of amusement for those who do not care to dance.

Both East and West committees will furnish further details which will be announced in the press.

## Death of Mr. Annin.

Many who noted the death of Charles H. Annin at LaGrange, as set forth in the Chicago press this morning, failed to remember that he was the husband of Miss Harriet Minkler, who during her residence in Aurora was one of the leading singers of the city. She was a soloist in the First Baptist and New England Congregational churches for years, and was also a favorite singer in concert both in Aurora and surrounding cities. She was an intimate friend of Mr. and Mrs. Ephraim Ford.

## To Meet to Sen.

The members of the woman's section of the Aurora branch of the Navy league will meet for work tomorrow at the E. F. Schoeberlein garage.

## It Is 25 Centimes.

United States brand of education and a conversation with a subject of the society column to say that letters from France, including the war tax, were bearing 25 cents in postage. This statement was criticized and it was said that it was "all right" but the coins, which are five cents in value, mean money "even up" as the postage clerk stated. This is said to include the war tax, how about it?

## Visiting in Aurora.

Mrs. Frank Holden (Grand Haring) and little son Frederick, of Portsmouth, N. H., are visiting the Holden and Haring families in this city.

## The Y. W. C. A. Outing Club.

The automobile ride planned for this evening by the Y. W. C. A. Outing club, will be quite weather permit. Automobiles will leave the Y. W. C. A. in two different units (the unit might as well work in this way. It is the best little word in the language at present writing). The first will leave at 8 o'clock, the second unit at 8 o'clock and each will go about the city and up to Batavia across the bridge and down the Big Woods road. A stop for refreshments will be made at the E. F. Schoeberlein garage. The proceeds will be used by the Outing club to pay the first installment on the \$100 voted to the building fund.

## Have You Backache, Gout, Rheumatism?

(By M. C. LUCAS, M. D.)

American men and women should guard constantly against kidney trouble, because we eat too much and all our food is so rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative system clog and the result is kidney trouble, bladder weakness and often the poison reaches the tissues, causing rheumatism, gout, etc.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, ask your druggist for Anuric (double strength). I have found in practice that Anuric is more potent than lithia and in most cases it will remove the uric acid as hot water does sugar.

Most people do neglect themselves. Their tongue has a dark color, skin sallow, broad, and yet they fail to see that their machinery needs attention. Everybody should take a mild laxative at least once a week. A pleasant way to clear the tongue and the highly colored water noticed in the morning is to take a laxative which will cure the inactive liver and biliousness.

A pleasant vegetable pill is made up of May-apple, leaves of aloes, and jalap, made into a tiny pellet and coated with sugar. First put up by Dr. F. H. Allen, 25 years ago. Druggists sell these vegetable pills in this simple wrapper. Dr. F. H. Allen's

**WOODMEN AND R. N. OF A.  
MEMBERS IN MEMORIAL****LODGEMEN AND AUXILIARY OF  
TO CLAIM STREET CHURCH.**

The annual memorial services of the Modern Woodmen of America and Royal Neighbors was held yesterday morning at the Clinton Street Baptist church upon the invitation of the Rev. T. L. Stephens.

The pastor spoke on the subject, "Fraternity and Religion," introducing the lodge to the church and the church to the lodge. He said in part: "The Modern Woodmen of America is a beneficiary society. Its benefits are threefold—the insurance benefits, the fraternal benefits and the sanitary benefits. Second, the Modern Woodmen of America is an economic society. It is well managed. It is also a democracy. It is composed of its own members and consists of 14,256 camps, each of which is a cordial center capable of great possibilities as the individuals desire to make it."

"The Christian religion is a soul saving religion. It is the gospel of salvation. It aims to cure moral disease and therefore addresses itself to those who stand in greatest need of its aid. The lodge is compelled to exclude those who live in unhealthful territory and those engaged in extra hazardous occupations. Every beneficial association is required to have a most rigid physical examination. This from the standpoint of the church looks as if it excluded those who are most in need of help. This is not a criticism of the lodge, yet it indicates that there is still a sphere for the church. There is a great number of imperfect folk and these are the ones the church are concerned about."

**DEAN MARLETTE FARMER**

Dean Marlette, former letter carrier, now farming at Casp, Douglas, Wis., has written to Floyd Bowers telling of his career as a farmer. He writes: "The spring has been late with frosts up to last week, but now things are coming in good shape. I have had plenty of rain, but not enough to bother the work much. I am looking fine and out are coming good. Corn planting is about done. There is no wheat raised on this much land. Everybody is planting potatoes now. There is no eight hour work day up here. I am well pleased with the farm and the more I see of the country, the better I like it."

"I have no pasty friends. Can you get some of them started up this way?"

**OLD CONDUCTOR DIES**

Charles H. Ely of Galesburg, a conductor on the Burlington railroad for the past 14 years, died at his home in Galesburg Friday afternoon after several months of suffering from plural pneumonia. He was known among Aurora conductor and train crews.

The funeral services will be held in Woodhull, Tuesday morning at 11 o'clock, at the Methodist church. Interment will be in Woodhull cemetery.

**MAXWELL LEAVES**

Former Superintendent H. W. Maxwell of the Aurora division of the Burlington railroad, left last night for McCook, Neb., where he was transferred June 1 to become superintendent of the McCook division. Mr. Maxwell takes charge of affairs on that division as soon as he arrives there.

C. D. Beckenbaugh, the new superintendent of the Aurora division, who succeeds Maxwell, and who came here from the McCook division, is now in charge of the Aurora division and traveled over part of it today with other local officials.

**CRANE HALTS ROAD WORK,  
DON'T LIKE BRIDGE DESIGN**

Herbert P. Crane, horseman at St. Charles, held up the state of Illinois in road building work for several days, until today, because he was displeased with the style of bridge constructed in front of his country estate—the Wild Rose farm—north of St. Charles.

A. D. Gash, president of the Illinois State Highway commission, accompanied by County Highway Commissioner G. N. Lamb, were at the Wild Rose farm today conferring with Mr. Crane and an agreement was reached so that the work was today resumed by the contractor, the Illinois Hydraulic Stone Construction company of Elgin.

Mr. Crane stopped the teams of the construction company from crossing his land in going to and from a gravel pit. He said that he was not given a chance to pay money for the extra cost of the design of bridge he wanted.

The pavement in front of Wild Rose farm is 3,500 linear feet and is to cost about \$14,000. Mr. Crane gets this pavement free.

The cost of state aid road paving is 12 feet wide in now \$20,000 a mile as compared with \$12,000 a mile for the Aurora division. The increased cost of material and labor is the cause of the higher cost.
